Library catalogue

To search for media online, please visit the university's homepage at www.hmdk-stuttgart.de/home/ and click on the word **Studium***, **Hochschule*** or **==** and then on **Bibliothek** (or **library** etc., *depending on which language you chose the website to be in).

Library catalogue

*To search the Library's collections quickly and efficiently, you can use the digital **Library catalogue** called „**Bibliothekskatalog**“ (also: OPAC = Online Public Access Catalogue).*

The collections are located in the Library and in our archives, called Magazin, as well.

Library catalogue

Simple search

Library catalogue – simple search

*The default search option of the standard Library catalogue is the **simple search**. Here you can type all your search terms in one search box. Terms from all categories can be mixed here (person, title, publisher, ...). Whether you use upper or lower case letters is irrelevant.*

Katalog der Staatlichen Hochschule für Musik und Darstellende Kunst Stuttgart

 [Print version](#)

The **Library Catalog** contains the Library's physical media (printed books, journals, CDs etc.) plus E-Books and E-Journals licensed by the library, which full text is available in the campus net.

The **"basic search"** lets you search your library's catalog by author, title, subject or other keyword. To do a basic search, enter one or more search terms. E.g. you can combine a personal name with one or more title keywords that you want to use in the Basic Search field. Basic search uses automatically "AND operations". If you do not know the exact term you want to search for, you can enter part of a word followed or preceded by a wildcard. The wildcard symbol "*" can stand for any number of characters. Using wildcards will slow down your search and may result in a large number of hits.

Library catalogue – simple search

Accordingly, the simple search generally offers a larger number of hits per search.
