The **Library Catalog** contains the Library's physical media (printed books, journals, CDs etc.) plus E-Books and E-Journals licensed by the library, which full text is available in the campus net.

The "**basic search**" lets you search your library's catalog by author, title, subject or other keyword. To do a basic search, enter one or more search terms. E.g. you can combine a personal name with one or more title keywords that you want to use in the Basic Search field. Basic search uses automatically "AND operations". If you do not know the exact term you want to search for, you can enter part of a word followed or preceded by a wildcard. The wildcard symbol "*" can stand for any number of characters. Using wildcards will slow down your search and may result in a large number of hits.

A photograph of a library interior. In the foreground, there is a large, dark brown, tufted leather sofa. Behind the sofa, a large, round, metallic gong or bell is mounted on a stand. The background consists of tall, light-colored wooden bookshelves filled with books. The floor is covered with a grey carpet. The text is overlaid on the image in a white, italicized font with a black outline.
